DIGITAL ARTS, SCIENCE, HUMANITIES LAB
YOU GET A CITATION!

AND YOU GET A CITATION!

AND YOU GET A CITATION!

EVERYONE GETS A CITATION!
“Cite,” verb

To summon, to call forward, to urge, to call to move or arouse, to set in motion, to call forth into writing. A command.

To evoke (an emotion)

To make reference to something in order to invoke authority.

First, you already know about citation generators.
What is a citation manager?

Article/book/website

Top 3 Things That I like about PaperPile

- Syncs w Chrome & Google Drive Folder for tons of storage
- Works well with Google Scholar, JSTOR, and a few other databases
- Take notes as you go to create an outline or list of quotes
Top 3 things about Zotero

- Free and open source
- Facilitates private and open collaboration with other researchers
- Makes it easy to capture a wide array of resources, including those without PDFs (websites, news articles on the open web)
Top 3 things about Mendeley

- Drag-and-drop PDFs and/or FOLDERS of PDFs into Mendeley library
- Create your own tags and search by them!
- Instantaneously change the format of your citations and bibliography
Try Paperpile for 30 days free. Get started in seconds.

After your trial, get a personal subscription or buy a multi-user license for your group.

Plays Nice with (some) Databases We Have

Online Databases - Add buttons for papers in supported scholarly databases

- Google Scholar
- Google Books
- Google Patents
- Google Search
- arXiv
- BASE
- DeepDyve
- IEEE Xplore
- INSPIRE
- JSTOR
- OvidSP
- ProQuest
- PubMed
- Scopus
- Web of Science
Let’s Do This!

Paperpile
No-fuss reference management for the web

Manage your research library right in your browser
• Save time with a smart, intuitive interface
• Access your PDFs from anywhere
• Format citations within Google Docs
... and much more

Start Paperpile
Sign in with your Google account.
