GRANTS & PROPOSALS

If you write it, they will fund!

"I gained a much more informed perspective on what grants are about, what I was doing, and what kinds of writing would likely be received favorably. I now have a file of materials that I can call on the next time I am formulating an internal or external grant."

"I became more organized in the grant writing process. The text in my grants target the general public more now."

"It gave me a foundation to start considering applying for grants."

"I feel much more confident about the grant process and have been looking for funding much more effectively since taking it."

"I would not have pursued these grants without this course. This course gave me the confidence, but also explained the techniques and strategies to properly present our ideas for success."

IMPROVE YOUR CHANCES OF GETTING FUNDED & LEARN HOW TO

- gear up on proposal writing and organization
- explore grant opportunities
- use campus resources and connections
- find and work with collaborators
- build concrete steps to submit your proposal

PROGRAM FORMAT

- 12 weeks, 1-3 hours per week
- asynchronous, online in Blackboard
