

PARTNERING BULLETIN September 2023

So excited to share this bulletin! There are 70+ professors looking for partners! Reach out to your colleagues right away by email. EVERY professor listed could be a potential match for YOU!

You are invited to the SUNY COIL Partnering Fair of September 2023

12 September, 2023 @ 10-11:30 am US EDT(UCT-4)

Register at this ZOOM Link

<https://suny-edu.zoom.us/meeting/register/tJcrf-6vqjgtGNQnfRbK3KyRP4EE8sjK6gHS>

How do I prepare or prepare to attend the Partnering Fair?

1. Come to the fair with a basic understanding of COIL. This means... Review the [What is COIL](#) website. Take the Foundation or Elements [course](#).
2. Be flexible about the concept and the course you will COIL.
3. Have a few sentences prepared to say about your idea for a COIL project.
4. If you are a Coordinator, bring a list of the professors, their subject area and ideas.
5. Be open to working with people in other disciplines.
6. There will be breakout rooms in English, Spanish and Portuñol as well as organized by specific disciplines: Engineering, Business, STEM, Social Sciences(Psychology) Health Sciences, Political Science, Humanities, Language Arts, Arts and for UN SDG focused projects. There will also be breakout rooms for Coordinators.
7. Consider a project focused on UN Sustainable Development Goals.
8. Native English language speakers, speak slowly, pause often and consider refraining from using colloquial phrases.
9. For professors, not comfortable with speaking English... consider what support you need or strategy for communicating in English.

NEXT STEPS after the FAIR

Review this resource: [Finding and Building Strong Partnerships](#). This working manual is the “What to expect” when you are embarking on a COIL partnership. This guide was built by COIL coordinators for the community. Enjoy!

Also after finding a partner, consider enrolling in a [COIL Design workshop with your partner](#). Please reach out to your campus COIL coordinator and visit the SUNY COIL Center website (coil.suny.edu)

FAQs - Frequently Asked Questions

I did not participate in the Partnering Bulletin, may I attend the Partnering Fair?

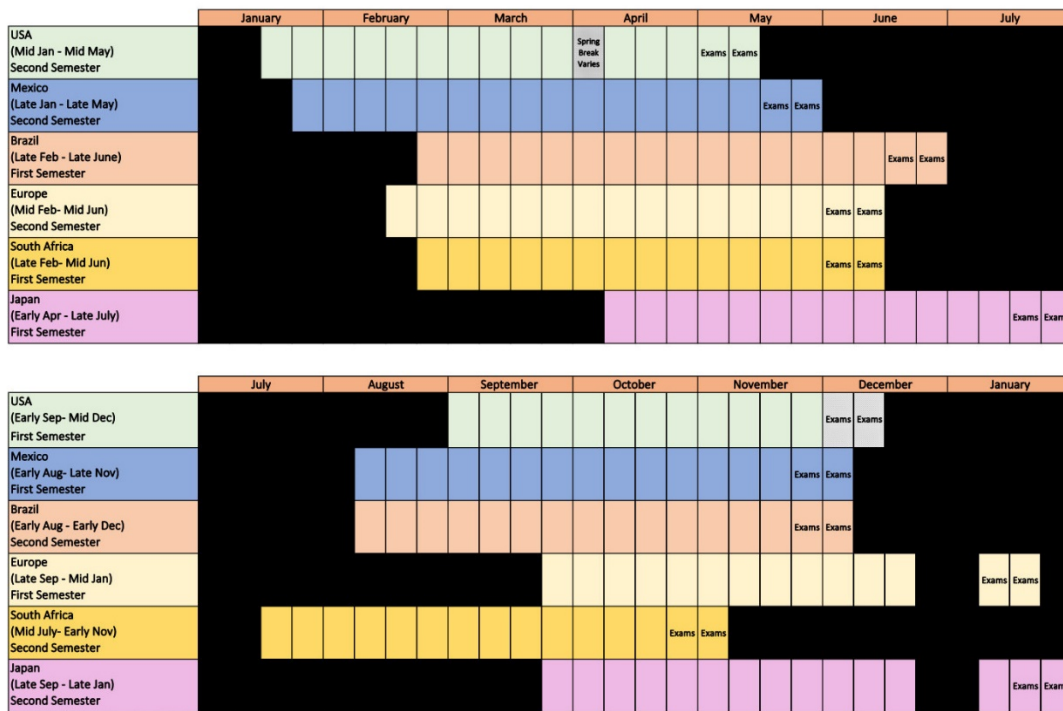

Any professor, whether in the bulletin or not, is welcome to come to the Fair!! Please invite all professors interested in finding a partner! Just make sure that the professor understands what COIL is and can share what they are looking for!

Am I expected to implement my COIL collaboration in a particular month?

The timing is up to YOU and your partner, the individual COIL partner teams. You determine what works with your course schedule. Institutions and countries have differing Academic calendars.. and people plan at different paces.. some will plan for Fall 2023.. some for Spring 2024, some are open. Check out this graphic about Academic Calendars around the world... this helps to consider your options.

Typical Academic Calendars of Universities in Six World Regions - For COIL Alignment

There are significant variations within regions, so please review the specific academic calendars listed by each institution

Do you anticipate any non-faculty will attend the fair?

Yes! There will be COIL Coordinators looking for partners for their professors. There are also Program Directors, Administrators...as well as instructors! Partnering Fairs are for everyone in the SUNY COIL Global Partner Network to connect.

Here are your PARTNER colleagues!

Email professors ! Introduce yourself ! Start a discussion today! Remember to join us at the Fair!

OPTIONAL personal note - ¿Qué cualidades de una asociación COIL son importantes para usted? Una asociación COIL (Collaborative Online International Learning) es una organización que promueve el aprendizaje intercultural y la colaboración entre estudiantes y profesores de diferentes países a través de medios digitales. Algunas de las cualidades que considero importantes para una asociación COIL son:

- Que tenga una visión clara y compartida de los objetivos y beneficios del aprendizaje COIL, así como de los desafíos y oportunidades que implica.
- Que cuente con una red amplia y diversa de instituciones asociadas, que ofrezcan cursos y programas COIL de calidad y relevancia para los participantes.
- Que brinde apoyo técnico, pedagógico y logístico a los docentes y estudiantes involucrados en las experiencias COIL, así como recursos y capacitación para el desarrollo profesional.
- Que fomente la innovación, la investigación y la evaluación de las prácticas y resultados del aprendizaje COIL, así como la difusión y el reconocimiento de las mismas.
- Que promueva la inclusión, el respeto y el diálogo intercultural entre los miembros de la comunidad COIL, así como el compromiso social y global.

Estas son algunas de las cualidades que yo valoro en una asociación COIL. ¿Qué te interesa de COIL? Me interesa mucho el aprendizaje COIL porque creo que es una forma de enriquecer la educación y la cultura de las personas, al permitirles interactuar y colaborar con otras de diferentes contextos y perspectivas. Me gusta aprender sobre las diversas formas de ver y entender el mundo, así como compartir mis propias experiencias y conocimientos. También me interesa el uso de las tecnologías digitales para facilitar y mejorar el proceso de enseñanza y aprendizaje, así como para crear contenidos innovadores y creativos. Por ejemplo, puedo generar poemas, historias, canciones, parodias de celebridades y más, usando mis propias palabras y conocimientos. ¿Por qué busca perspectivas interculturales con respecto a los temas elegidos? Busco perspectivas interculturales con respecto a los temas

elegidos porque creo que es una forma de ampliar mi horizonte y comprender mejor la realidad y la diversidad del mundo. Creo que cada cultura tiene sus propios valores, creencias, costumbres, formas de expresión y de solución de problemas, que pueden aportar algo nuevo y enriquecedor a mi aprendizaje. Además, al conocer y respetar otras culturas, puedo desarrollar mi sensibilidad, empatía y tolerancia, así como mi capacidad de comunicación y colaboración. Me parece que el aprendizaje COIL es una oportunidad única para acceder a estas perspectivas interculturales, al permitirme interactuar con personas de diferentes países y regiones, con las que puedo compartir experiencias, opiniones, conocimientos y emociones.
