Don't have so many words on a slide. It is hard for students to write and listen at the same time. I struggled trying to decide what was important to write while at the same time attempting to hear you explain the topic.

way to much information that the class fell super behind from schedule and it felt like we were constantly rushing

The class was very good, the coursework was helpful, the powerpoints were helpful, the professor was very good.

I think the class could be a bit more engaging.

n/a

Give more homework, maybe online homework to help students understand the material more

No suggestions

Incorporate more ways to engage with lectures.

You're doing great! Very effective and timely. Sometimes you go a little too fast, but if asked to slow down and stop, which is greatly appreciated.

14. Please reflect on your experience in this course. Did the instructor foster a productive learning environment?

It was an okay learning environment. Other than the fact that no one spoke due to trying to write and listen

it was a fine class just a lot of information all at once in a short short time

Power points had a lot of information and I often did not have enough time to copy it all down. They are available on blackboard but not having the time to copy it all down sometimes messed up my notes. Otherwise, he was always very helpful when we had questions on our coursework and would work us through the questions so they made more sense.

Yes he did, he asked questions and tried to engage the students, and was very knowledgeable.

Professor Le Vine is a very nice teacher. He really cares about his students.

yes

Yes, amazing professor. Very helpful and understanding of everything

yes

It was very easy to follow along. The professor would take time to pause and make sure every had time to write

the notes. The material was explained well and he always answered any questions asked.

Yes! I learned a lot.

I think you make the hard material more easy to understand. It's a complicated topic, and I took weather and environment beforehand so I know, but I'm doing so much better in this class than in the other one because you make the topic easy to understand.
