I would recommend him giving us more time to know about assignments, but nothing was unmanageable so really he doesn't need to change anything.

Sir keep on keeping on.

I think the class would benefit from a more interactive class lecture. I feel the class is mainly based on whats written on the power point and there often isn't discussions that could pertain to outside information.

the use of the voice enhancer was very helpful.

Professor Le Vine is incredibly organized and presents his course information in a very logical way. His lectures only include relevant information. He also posts the lectures on Blackboard which is incredibly helpful. Class time mostly consists of lectures, however they are very effective.

We weren't able to cover all the chapters, - maybe try organizing days where youll go over specific coursework.

I have no suggestions to offer that would improve future versions of this course. Overall this was an incredible and eye opening course to take on how the world and different systems work. Scott Le Vine has really peaked my interests in Geography and I will continue with taking Geography instead of the plan I had prior!!

Let people know that the textbook is optional on the syllabus, maybe more visual representations rather than just numbers of tables and information

i know that I and a few other students do not use Microsoft word/ powerpoint, so it made it hard for us to access the notes from blackboard, maybe making these on google slides or formatting them as pdf files could make this easier.

14. Please reflect on your experience in this course. Did the instructor foster a productive learning environment?

yes, so much so that I am taking another one of his courses next semester because I enjoyed how he taught.

The class was clear and well organized. The lectures, which are on blackboard as well, gives us all the information we need to do our courseworks and pass our exams.

Provided a nurturing environment for all students, extremely helpful and understanding.

I loved this class!

WOOOOOOOOOOOOOOOOOOOOOO! I had a gr8 tim thx broski

I found this class too be interesting, but could have been a lot better. Professor LeVine is a good professor, who really does want his students to succeed. However, the class overall lacked enthusiasm, and could have been much better, it doesn't help the class was so early in the morning and everyone is so tired.

professor was very professional and caring. provided a great environment.

He was very helpful and would make sure each student fully grasped what he was teaching. He is overall an amazing professor.

love it! I love his teaching style - although I am a big fan about economic geography - LeVine makes it understandable to learn :)

Great teacher, great class!!!!!!!

Professor Le Vine was very straight forward on his expectations for the class. I learned a lot and liked how he set up the structure of the course.

Yes, a little quiet from the students, maybe because it was a 9:30am class. Ask more questions before showing us slides to guess some things to maybe to get more people to participate and get involved rather the a few.

over all I had a good experience in this course, I think that it was very informative and easy to follow.
