more homework

None really, class discussions stagnated at times and became boring but were usually very good. All the material covered prepared me for the exams and the courseworks assigned also helped prepare me for exams

I wish the class wasn't as note intensive.

Professor LeVine is extremely knowledgeable in his field and I think he is a great professor!

I felt the coursework was a great way to get use ready for exams, as well as ask any questions we had on the material. It also helped to make it clear what information was going to be on the exam and what wasn't.

Open the floor for discussion earlier in the semester to encourage student participation. Towards the end of the semester, everyone becomes comfortable with not speaking so it's harder to create a discussion.

Maybe add some example math problems and solutions to the power point just in case students didn't take the

best notes or need the steps spelled out.

14. Please reflect on your experience in this course. Did the instructor foster a productive learning environment?

Yes

yes

Yes he was somewhat engaging and he tried to keep the information interesting.

Scott Le Vine was a great teacher. Very knowledgeable and was a nice guy.

Very productive learning environment, would definitely recommend this class to my peers.

Overall, the class was okay. I feel confident in my understanding of the materials but I never felt truly "engaged" during the lecture.

From the first day I knew I wanted to try because professor Le Vine really showed he cared, would try to prepare us for exams, and would be readily available. This proved to be true. Great professor who really cares and tries even though this is not his only gig. This man deserves a raise!
