

## Figure 4 Scoring Guidelines for the Reading Survey

### MRP-R Scoring Guidelines

In order to increase the reliability of student responses, the items are variably scaled. Some items have the responses listed in order from *least motivated to most motivated* (scored 1-4) and others have responses that are listed in order from *most motivated to least motivated* (scored 4-1).

To support you in scoring items correctly for input into the spreadsheet and for calculating the *Self-Concept* subscale and the *Value* subscale, please use the following table to guide you.

Compare the student's response (first through fourth response selected) with the item numbers below to determine the score for that item.

Item Number	1 <sup>st</sup> response	2 <sup>nd</sup> response	3 <sup>rd</sup> response	4 <sup>th</sup> response
1 SC	4	3	2	1
