

# Names Test

## (Reordered & Augmented, Mather, Sammons, & Schwartz, 2006)

### Administration instructions and scoring sheet

**Say:** "I want you to pretend that you are a teacher and you are calling out your students' names to take attendance. You are trying to figure out who is at school and who is not. Some of these names may be hard, but just do the best you can."

Record a 1 for a correct response and a 0 for an incorrect response. Score both the first and last names.

Write incorrect responses directly above the name.
